

LYNEA

wall-mounted video receiver

With its elegance and slim design, the Lynea video receiver naturally blends in with any setting. Available in the 4" b/w or 3.5" colour versions, it allows the user to select the number of rings per call and choose from four different call melodies, from both the entry panel as well as the doorbell. It can also accommodate up to 6 additional buttons and/or accessories and a table-top support.

FUNCTIONS

INSTALLATION

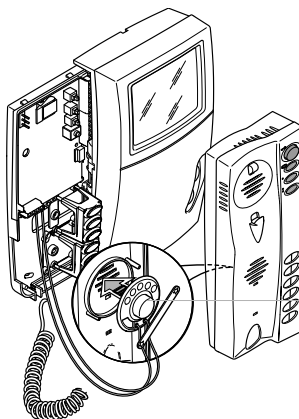

The Lynea video receiver is composed of:

- **YKP/...**: audio receiver module with support.
- **YV** or **YVC**: b/w or colour video module.

Installation is quick and easy. After having installed YKP/... on the wall, the YV or YVC video module simply hooks onto the support.

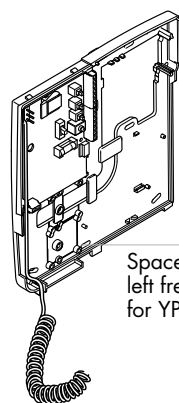

YAL SUPPLEMENTARY CALL LOUDSPEAKER INSTALLATION

It is possible to increase the call note level by adding the supplementary loudspeaker inside the receiver.

Space left free for YAL

ACCESSORY ASSEMBLY

Space left free for YP3 or YPL

The YKP/... receiver mounting support is prepared for fitting 6 accessories in order to obtain additional functions.

For example:

- **YP3 + YPL**: these accessories allow 3 intercom call buttons with indicator light for intercom communication in progress and privacy selector.
- **2 YP3**: allows six intercom call buttons.

For table-top connections, you can use the standard RJ45 connectors combined with the YKT/F support.

The receiver allows the user to choose from four different melodies for calls from the entry panel and four for calls from the doorbell. **(Not available on the system 200.)**
