

OPHERA

recessed hands-free colour monitor

This recessed hands-free video receiver comes with 3.5" colour monitor and exchangeable colour covers included in package. The LCD TFT monitor ensures quality chromatic performance, and the high-fidelity audio guarantees great acoustic performance in hands-free mode. Equipped with a pull-down display for a perfect viewing angle, it can also be provided with the intercommunicating module accessory included in the package. Also available in the expandable kit with 2-wire X1 technology and power supply included.

White body; art ic blue, orange and white cover

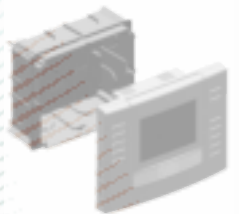

Silver body; black, white and grey cover

FUNCTIONS

INTERCOM FUNCTION

The buttons accessory provided can transform the video receiver into an intercom.

Featuring the following controls:

- 1 ÷ 4 (5 ÷ 8) Call buttons
- > Doubling button (for calls 5 ÷ 8) (red LED)

This accessory allows the basic functions of the video receiver to be used:

- Intercom calls (max. 8) with VSE/301 selector or for activating auxiliary services with actuators.
- Call transfer in intercom mode.
- Light signal with doubling LED to indicate system busy.

PULL-DOWN DISPLAY

The unit has a movable part that can be tilted outwards by 20° in order to ensure excellent viewing from different heights.

**Package**

- n. 1 Ophera video receiver
- n. 1 PHI embedding box
- n. 1 intercom module
- n. 3 pairs of coloured covers

The special embedding box has been designed for installation either in brick or plaster walls thanks to the special anchorage kit included in the package.
