

# TARGHA GH-ST standard

IP54

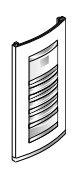

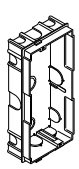

Colour: Greyhound grey GH

The entry panel from **Bpt** merges the utmost modularity and functionality with the most advanced aesthetic values contemporary design has to offer. Just a few codes is all it takes to find the right solution for any need. Made from anodized aluminium and available in two colours, Anthracite grey ST and light Greyhound grey GH, the Targha entry panel's high-tech appearance blends in effortlessly with the style of any building. Easy to install, Targha is particularly suitable wherever leaving the existing structures untouched is of paramount importance.

Anthracite grey ST

## VERTICAL-HORIZONTAL COMPOSITION

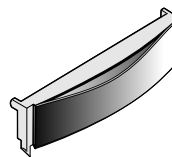

## ADDITIONAL BUTTON KITS

Kits KHPS and KHPD enable single or twin keys to be added to the front plates shown above. The KHSO kit is used to add the busy warning, and the KHIN kit lets you enter additional information (e.g. flat number, business hours etc.).

## BLANK KEY COVER

Standard issue with the six or twelve buttons front plate.

Embedding boxes feature cable-routing spacers for correct positioning during installation.

# TARGHA GH-ST standard digital

IP54

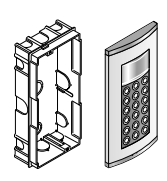

Colour: Greyhound grey GH

Unbeatable performance in the smallest package: thanks to the digital push button panel, even building complexes with a large number of users will no longer be a problem. The electronic coded call entry panels are the best solution, in terms of both practicality of use as well as guaranteed privacy. Targha is equipped with backlit keys and a generously sized display. It can be recessed or wall-mounted and is available in two colours, Anthracite grey ST and light Greyhound grey GH.
